Board of Directors' Zoom Meeting:

Tuesday, October 13, 2020 at 7:00 p.m.

President's Message:

At the beginning of March our President at the time Was Nick Giammona. He started the work with Martin Goss to make a change to our Declaration that would eliminate further liability associated with the responsibility for Villa roof repair and replacement. Our next President John Mear continued this work. The work is now finished and the vote to change the Declaration and give the Villa owners the same responsibility as the Stand-Alone units has been passed, with 162 votes yes and 14 voted no. Both John and Nick moved, and their efforts along with the many hours put in by Martin with the Attorney are to be commended.

At the end, the final votes were brought in by our Vice-President Jennifer Hanks. She went door-to-door to get votes and brought in about 40 votes in the last weekend before the count. Her efforts brought the votes in and helped the community get the changes passed. Our community has been under a good deal of stress along with the entire planet as we cope with the pandemic created by COVID-19. When will it end? When can we get back to normal? And lots more questions about the changes in our lives are being asked by everyone. None of us have an answer at the moment. But we do know that our community of 55+ aged residents is in a category of a higher risk than ordinary communities. Because of the risks, there have been some rules that have been instituted to protect the community from unnecessary exposure. We have eliminated lots of functions and prohibited guests from using the pool. The clubhouse functions have been reduced as well and masks are required even in small groups. None of this has been easy and the changes in our retired lifestyles have been at a minimum, annoying.

We are operating as we always have here on an "Honor System". We don't have a security staff, nor do we want one. The Board is not here to police activities. Those policing our pool and clubhouse are encouraged to not get into arguments with others but to record the time and date and pass this along to the Board that will then, if needed pass the information along to the Compliance Committee for further actions. Infractions of our community rules have a process that includes a letter

President's Message continued from page 1 . . .

from management and when repeated, possible Compliance committee meeting and potential fines.

The Board has discussed with many residents the issue of allowing guests to use our facilities. The overwhelming response from members of the community is the desire to "NOT" permit guest at this time in our Pool or Clubhouse area. The primary reasons are because of the closeness of our community and our average resident ages that have higher than average risks for complications that may arise due to Covid-19. We all agree that this is not a very good outcome for our friends and families but, considering the potential it is necessary. We do have lots of close beaches nearby that can accommodate families and the social distancing requirements now in force. It is my hope that we can get more involvement in our community newsletter from our residents. You are each invited to send us your favorite recipes and information and fun things do in the area or just great stories for use in this paper. We would love to hear from you all.
